Objektbeschreibung

Property Description
This luxury estate home was designed by a nationally-renowned architect. It sleeps 12 comfortably and can generate substantial annual revenues as a luxury vacation rental property. The property is located in the mountainous area known as Los Altos de San Juan. It sits at a cool altitude of almost 3,000 feet with no need for air conditioning at any time during the year. The location is an easy 10 minute drive to San Isidro de El General and approximately 30 minutes to area beaches. Whether you are standing by the pool or relaxing in the bedrooms, you will enjoy spectacular views of rivers winding through lush farmland, the verdant mountains towering in the distance, and the dazzling city light views of the city of San Isidro de El General. The entire estate consists of the main house, a guest house, and a cabina, all of which combine to offer some 8,700 square feet of indoor living space. In the main house there are two master suites, plus two additional bedrooms, all of which feature dramatic mountain views.
US \$ 1 150 000 + 3,57 buyers comission incl. 19 % German VAT
